### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with NJ Boddie on 6/9/2004 in response to the restriction requirement below.

The application has been amended as follows:

Claims 39-200 have been canceled.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 34-38, drawn to a process for determining the sex of an avian egg.
- V. Newly submitted claims 181-200, drawn to a method of assaying eggs for the presence of a pathogen.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and V are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions the methods are patently unrelated as drawn to methods assaying for different substances for diverse reasons.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

During a telephone conversation with NJ Boddie on 6/9/04 an election was made with traverse to continue to prosecute the invention of group I, claims 34-38. The claims were to have been withdrawn from consideration as being non-elected by original presentation.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
